

# Summer of Science!

**Friday, June 28**

**WAVE BOTTLES:** Ever wondered what a wave looks like to a fish? Make a wave bottle in a test tube and find out!

**Friday, July 5**

**PATRIOTIC SCAVENGER HUNT:** There are 12 rubber duckies decked out in red, white, and blue and hiding in the Museum—they'll be there from July 3 through July 7. Can you find them all?

**Friday, July 12**

**OUBLECK:** What's soft when you touch it and hard when you punch it? Oobleck, of course! Come play with this cool fluid made out of cornstarch and water.

**Friday, July 19**

**GEARS & SPIRALS:** How do gears work? How can you use them to make beautiful artwork? We'll find out!

**Friday, July 26**

**MAGNETS:** Sometimes they stick together, other times they won't get anywhere near each other. Why? Stop by and learn a little about marvelous magnets!

**Friday, August 2**

**WALL COASTER:** Help us build a roller coaster on our wall and see if you can race a marble from the top to the bottom without having it fly off!

**Friday, August 9**

**KEYSTONES:** Did you know that even the strongest arch will fall apart if you remove a piece called the keystone? Help us build an arch and learn about this "key" to its success!

**Friday, August 16**

**PULLEYS:** You can make it easier to lift a heavy weight if you have something called a pulley to help you. Come learn about these cool machines and try one out!

**Friday, August 23**

**SNAP CIRCUITS:** Experiment with basic electronics using award-winning kits from Snap Circuits!

**Saturday, August 31 – Sunday, September 1**

**"DETECT THE DIFFERENCE" SCAVENGER HUNT:** Pick up a booklet at the docent desk, then search the Museum to find the exhibits pictured within. How are the photos different from the real thing?

**Submarine Museum & USS Nautilus**  
Adjacent to US Naval Submarine Base  
1 Crystal Lake Rd • Groton, CT  
**800.343.0079 • ussnautilus.org**
