

Navy Future Scholar Program

Call for any US high school juniors and seniors

to write and submit an extended abstract-1000 word limit- from a research project or review article covering a topic with Naval applications.

The Navy Future Scholar program is a partnership between the U.S. Navy Submarine Force Museum and the UConn/URI Navy STEM Coalition

Present your research

The top submissions will be invited to present their research at the SFM during our Navy future Scholars Research Slam to college faculty and industry professionals and may receive one of our available scholarships.

Submissions or questions should be submitted to

navyfuturescholar@gmail.com.

2024 Navy Future Scholar Program

is a partnership between the submarine Force Museum and the University of Connecticut and University of Rhode Island Navy STEM Coalition.

This program calls US high school juniors and seniors interested in STEM to do a research project or write a review article on a topic related to US Naval operations. With this project the student shall write and submit an extended abstract no longer than 1000 words. The best abstracts selected will be invited to the Research Slam hosted at the Submarine Force Museum. At this event the future scholars will present their research and get a chance to meet with faculty of local universities. Additionally, some of the chosen presenters will receive a scholarship to help them pursue collegiate studies.

PROMPT:

Research a topic that could provide a strategic lesson, or conduct a study on a topic of scientific or engineering significance, pertinent to the US Navy's current operations by prioritizing readiness, modernizing capabilities, or generating cost-effective capacity to achieve warfighting advantage.

**Abstracts and questions shall be submitted to
